

# Re-Open Sask. does **not** mean...

A back yard BBQ  
with nine of  
your friends.

## Please, don't stop social distancing.

# What you **can** do

Choose one or two  
close friends/families  
to form an extended  
household.

## Visit only with them and always:

- Keep two meters apart
- Keep groups under 10
- Stay home if sick

# And remember...

Those you choose  
to make up your  
extended household  
must remain  
**consistent.**

## Do not visit different friends or families every day.

# Well done!

By working together  
we are flattening  
the curve!

# Don't stop now.

Physical distancing is as important as  
ever so please continue following public  
health orders and help keep SK safe!
